

IDAWRA Presentation: "Treasure Valley Engineers Without Borders: Clean Water for Villa America"

Speakers: Kiersten Lee, MWH Global

Pat Naylor, Naylor Engineering & Science, PLLC

Friday, May 27, 2016, 11:30AM - 1:00 PM

Project Purpose/Objectives: *Clean Water for Villa America*

- Provide better water for the homes for cooking, cleaning, and personal hygiene that will improve health and lifestyle.
- Reduce the incidence of water-borne and water-related disease.
 - The health of the families is the biggest need and challenge of this program-project.
 - Health problems such as parasites affect the children, their nutrition and growth. Other illnesses keep adults from working to provide for their families.

The first phase would involve getting the water from the Omaiz River to Villa America (6kms away). Villa America has 156 family plots that measure 20 kms x 40kms each.

IDAWRA Presentation: Friday, May 27, 2016; 11:30 to 1:00pm; Treasure Valley Engineers without Borders (TVEWB) presentation on Peru Project

Speakers: Kiersten Lee, MWH Global and EWB
 Thursday, April 21, 2016, 11:30 -1 pm (talk will start at 11:45)
