

IDAWRA: *“Implementing Private Managed Aquifer Recharge in Idaho”*

March 9, 2017, 11:30 - 1:00

Washington Group Plaza Training Room, 720 Park Blvd., Boise

Dr. David R. Tuthill, Jr., Idaho Water Engineering, LLC

Idaho Section of the American Water Resources Association

IDAWRA: *“Implementing Private Managed Aquifer Recharge in Idaho”*

Thursday, March 9, 2017, 11:30 - 1:00

Washington Group Plaza Executive Dining Room, 720 Park Blvd., Boise

Dr. David R. Tuthill, Jr., Idaho Water Engineering, LLC

This talk will provide basic information regarding private Managed Aquifer Recharge (MAR) in Idaho, including (1) identification of need, (2) structure and laws, (3) implementation and (4) future. The talk is given from the perspective of the Recharge Development Corporation, an Idaho corporation formed in 2013 with the specific purpose of implementing private MAR within Idaho and beyond.

Dave Tuthill has worked in the field of water resources throughout his career. He earned a B.S. in Agricultural Engineering from Colorado State University, an M.S. in Civil Engineering from the University of Colorado, and a Ph.D. in Civil Engineering from the University of Idaho. He worked for the Idaho Department of Water Resources from 1976 through June, 2009, serving in a variety of increasingly responsible positions for the agency, in both the State Office and the Western Regional Office. During the period from January 1, 2007 through June 30, 2009, he served as Director of IDWR. In 2009 Dave founded Idaho Water Engineering, LLC. In 2013 Dave was one of the original founders of Recharge Development Corporation.
