

Movie Night at the Flicks

Thanks to everyone who helped support the Treasure Valley Engineers Without Borders by attending Movie Night. The funds will help [Treasure Valley Engineers Without Borders-USA](#) project to provide clean drinking water to the people of Villa América, Peru.

We were able to donate \$320 from ticket sales and individual donations after theater expenses. TVEWB also got a lot of visibility and interest from attendees.

Thank you to our filmmakers:

The Wild President (NRS, Producer, and Will Stauffer-Norris, Director)

In Love With Frank (Seth Dahl)

Our Local Epic (Will Taggart, Director; Aaron Pruzan, Producer; Jamie Crowley, Executive Producer)

Thank you to "The Flicks" for their help in organizing this event.

Feature film: "Our Local Epic: The story of protecting the Clarks Fork of the Yellowstone River", Steeped in the lore of Chief Joseph's escape from pursuing cavalry, the place was believed to be impassible. Adventurous kayakers began exploring the depths of the canyon as development projects were proposed to change the river forever. Unlikely alliances, the intertwining of different lives, and the work of one tireless man succeeded in protecting this National treasure. Starring Yvon Chouinard, Lamar Empey, Rob Lesser, Mick Hopkinson, and Aaron Pruzan.

The Wild President

From NRS Films: President Jimmy Carter grew up in awe of nature's wonder. But it wasn't until he first paddled the Chattooga River that he understood the power and majesty of a wild, free-flowing stream. The Wild President tells the story of Carter's pioneering tandem-canoe descent of Bull Sluice Rapid and how the experience transformed his life and politics. In 1974, Carter successfully pushed to designate 57 miles of the Chattooga as Wild & Scenic, permanently protecting it from development and dams.

In Love with Frank

This is a love story with a wild place: tributaries of Idaho's Middle Fork of the Salmon River: Rapid River, Loon Creek and Camas Creek. Middle Fork guides Seth Dahl, Todd Richey and Mike Bond explore and discuss how wilderness, kayaking, and the guide lifestyle has, and will continue to, shape their lives.
