Diggee Creek Enhancement Project

Monday, March 5, 2018

Doors open at 11:30, bring a lunch and socialize

Program starts at 12:00

LEED Platinum Banner Bank [Building, 2nd floor, 950 W Bannock St, Boise ID 83702](#)

Speaker: Mike Homza, WH Pacific

Overview of Presentation

The Shoshone-Bannock Tribes' Fish and Wildlife Department recently restored a length of Diggee Creek on the Fort Hall Indian Reservation in eastern Idaho. The design of this spring-fed stream included the restoration of complex in-stream, wetland and upland habitats as well as the restoration of the local, tribal swimming hole. Michael Homza, the project's design engineer from WHPacific, will discuss details of the project's design and construction, including some important lessons learned.
