The Idaho Section of the American Water Resources Association (IDAWRA) is hosting its fourth Speed Networking event at BSU.

The purpose of the IDAWRA Speed Networking event is to allow undergraduate and graduate students to quickly meet and network with a variety of professionals from various water resources disciplines. It will benefit both students who are just starting to explore their career options and those ready to join the workforce. Students will learn about experiences and opportunities that are available in various water resources vocations and will learn how water, as a career, is evolving.

We'll have round tables set up, each seating about 8 people. Two professionals at each table will be joined by students. The professionals will talk about topics of their choice, such as their careers, description of a typical day, career options in water, growth industries and emerging fields, or graduate degrees - pros and cons. Students can ask questions at any time. After 20 minutes, the students will rotate to another table. Hopefully students will get to meet at least 8 professionals. More than 60 students (undergraduate, graduate, and post-doctoral) participated in the 2015 Speed Networking.

When: Thursday, April 5, 2018, 4:30 - 6:30
Where: Boise State Alumni Center
1173 W University Dr, Boise, ID 83706
alumni.boisestate.edu
(208) 426-1698
Cost: Free

One more thing, this event is open to all college students, so please pass this on to students you know. They do not need to register prior to the event.

Community, Conversation, Connection

Ryan Carnie, PE, CFM, LEED© AP
Senior Water Resources Engineer
GeoEngineers
IDAWRA President

Andy Weigel, PG
Hydrogeologist and Project Manager
Brown and Caldwell
