

**IDAWRA: Dinner Meeting, "Climate Change - What we know and what are we doing",
Tuesday, Oct. 14, 2014, Riverside Hotel, Boise**

**Dinner Meeting of
Idaho State Section of the
American Water Resources Association
Tuesday, October 14, 2014
5:00 PM to 8:00 PM**

Responding to Climate Change – What we Know and What we are Doing?

Program Description

Climate change discussions have entered into the planning of Idaho's water projects to some degree. Agree or not, the issue of climate change has forced planners, modelers, and government agencies to view water projects through a new lens. The panelists will provide current views on how some of Idaho's irrigation, fishery, flood control and other water projects have had to address this political hot topic.

Panel Members

Wayne S. Wright (Moderator), GeoEngineers, Inc. Principal Fisheries and Wetlands Scientist wwright@geoengineers.com

Neely Miller, Idaho Department of Water Resources Planner, neely.miller@idwr.idaho.gov

Rob Sampson, NRCS National Water Management Engineer rob.sampson@wdc.usda.gov

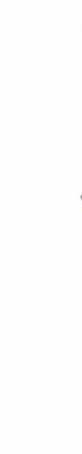

Daniel J. Isaak, US Forest Service Research Fish Biologist disaak@fs.fed.us

Toni E. Turner, Bureau of Reclamation tturner@usbr.gov
